Ceann Comhairle,

Ten years of brutal sanctions and repeated bombing have destroyed Iraq and made life impossible for it's 22 million people. Over 1.5 million people have died as a direct result of the sanctions. Over half a million were children below the age of 5 years.

"We are past the point where silence is passive consent—when a crime reaches these proportions, silence is complicity." (Noam Chomsky, Edward Said, Howard Zinn)

We ask that the Dail pass a resolution demanding that the government stop complying with the sanctions immediately.
